## INVITATION TO PARTNER

On behalf of the Local Organizing Committee and HUGO, it is our great pleasure to invite you to partner with us for the **2024** Edition of **Human Genome Meeting (HGM): “Genomics in Precision Health** to be held in **Rome, Italy, from April 8 to 10, at Sapienza, University of Rome.**

Human Genome Meeting (HGM) is a series of annual conferences organized by the Human Genome Organization (HUGO) that, over the years, with the completion of the Human Genome Project, has evolved into a scientific conference for all genetic and genomic researchers; an excellent platform for industry partners and bio-technology and pharmaceutical companies; and a fantastic reunion for fellow scientists and networking opportunity for established and young investigators.

The main topics will be:

- Microbiome and Metagenomics
- Precision and Predictive Medicine
- Gene therapy for rare genetic diseases
- Non-coding RNA genes and human diseases
- DNA repair defects and immunotherapeutic response
- Precision medicine in the Mediterranean region
- Genomics of Mediterranean Populations
- Genetics of Complex and Multifactorial Diseases
- Computational biology and transcriptional networks
